Using Electronics at TOP

Many people enjoy using electronics.

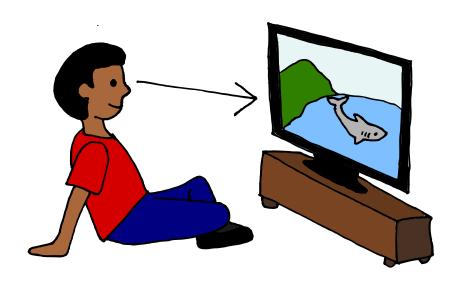

Copyright 2013 www.lessonpix.com

They like to use their cell phone to text or play games.

They like to play video games.

And they like to watch movies on a TV or laptop.

We have laptops at TOP.

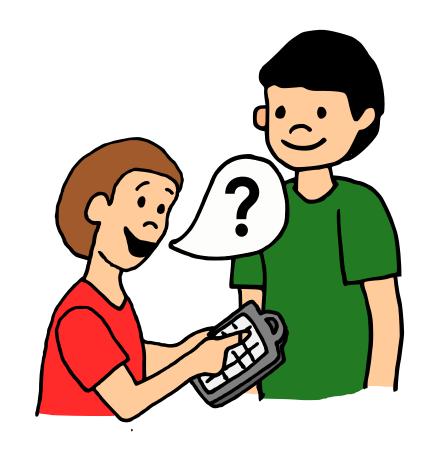

We also have tablets.

Some people bring their cell phones.

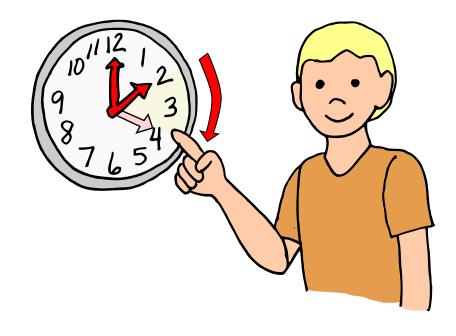

Students can use electronics for fun during break time. This is why we have breaks.

If students want to use electronics for fun, they need to ask permission.

The supervisor will say yes or no. Either answer is okay.

If the answer is no, they will have to accept the feedback and wait until the next break.
