If the household is reporting more than one source of income and there is a difference in how often the income is received, use the chart below to calculate the annual income.

Instructions for calculating income:

¹Annual income.

²Monthly income x 12 = annual income.

³Twice per month income x 24 = annual income.

⁴Every two weeks income x 26 = annual income.

⁵Weekly income x 52 = annual income.

All numbers are rounded upward to the next whole dollar.
